# FILACR10

FILACR10 is the new concentrated detergent specifically formulated for after-installation washing of floors and wall coverings grouted with epoxy grout.

Also effective for removing old and stubborn residues, FILACR10 is specifically formulated for non-absorbent floor and wall coverings such as **glazed ceramic tiles, porcelain stoneware and glass mosaics**.

Its viscous formula makes it perfect for vertical surfaces, both indoor and outdoor.

## ADVANTAGES

- Ideal to remove fixing residues on floor and wall coverings grouted with epoxy grout
- Removes even large, old residues of epoxy grout
- Effective on all kinds of epoxy grout
- Its viscosity makes it perfect for vertical surfaces
- Ready to use
- Specifically formulated for non-absorbent materials: glazed ceramic tiles, porcelain stoneware and glass and ceramic mosaics
- Easy and quick to apply
- Gentle smell
- Does not harm grouting

For best results the surface must have been grouted perfectly following the technical info for the epoxy grout used.

## HOW TO USE

For particularly stubborn residues, repeat the same procedure, leaving the product work for longer. **Warning:** Before use, always test on a small area of the surface to check the material's resistance and work out optimum waiting times for best results.

## RANGE OF DETERGENTS

For ordinary and extraordinary maintenance

### FILACLEANER

**CONCENTRATED NEUTRAL DETERGENT**

- For ordinary maintenance.
- Delicately cleans all surfaces without harming them.
- Does not need rinsing and does not leave streaks or residues.

### FILAPS87

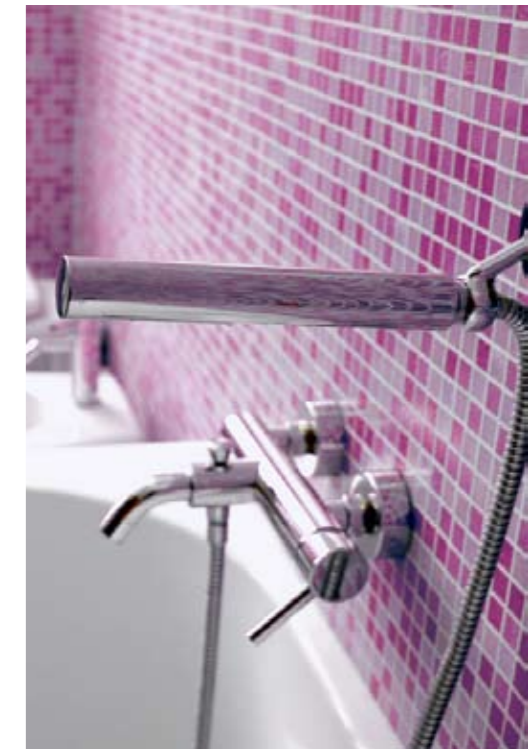

**DEGREASING DETERGENT AND STAIN REMOVER**

- For extraordinary maintenance.
- Eliminates more difficult dirt and stains without harming the surface.
- Stripper for water-based waxes.

### DETERDEK

**ACID DESCALING DETERGENT**

- Removes fixing residues of cement and building site dirt
- Eliminates limescale and encrusted dirt.

## TECHNICAL SPECIFICATIONS

**Composition**  
Contains: Soap more than 5% but less than 15%.

**Precautions**  
Do not use on absorbent materials such as marble and stone. Do not use on wood. Always test on a small area of metal surfaces to check their resistance to the product.

Do not use on methacrylate surfaces.  
Storage temperature: between 5° and 30°C.  
Must be applied to material at temperatures between 5° and 30°C.

**Characteristics**  
Appearance: viscous liquid  
Colour: yellow to brown  
Odour: almond fragrance  
Density: 1.01 kg/l  
pH: 12.7

**Sizes**  
In 1 litre containers in boxes of 12.

**Quantity to use**  
With one litre of product: 2-4 m<sup>2</sup>  
Coverage is indicative (depending on the amount of residues and age)
