

**NEW** **FILA POW909**

**PRE-LAYING EFFLORESCENCE-BLOCKING PROTECTOR AGAINST SALTS AND OTHER CONTAMINANTS**

# FILAPOW909

FILAPRW909 is a water-based protector with low VOC emissions that supports the FILA GREEN ACTION project

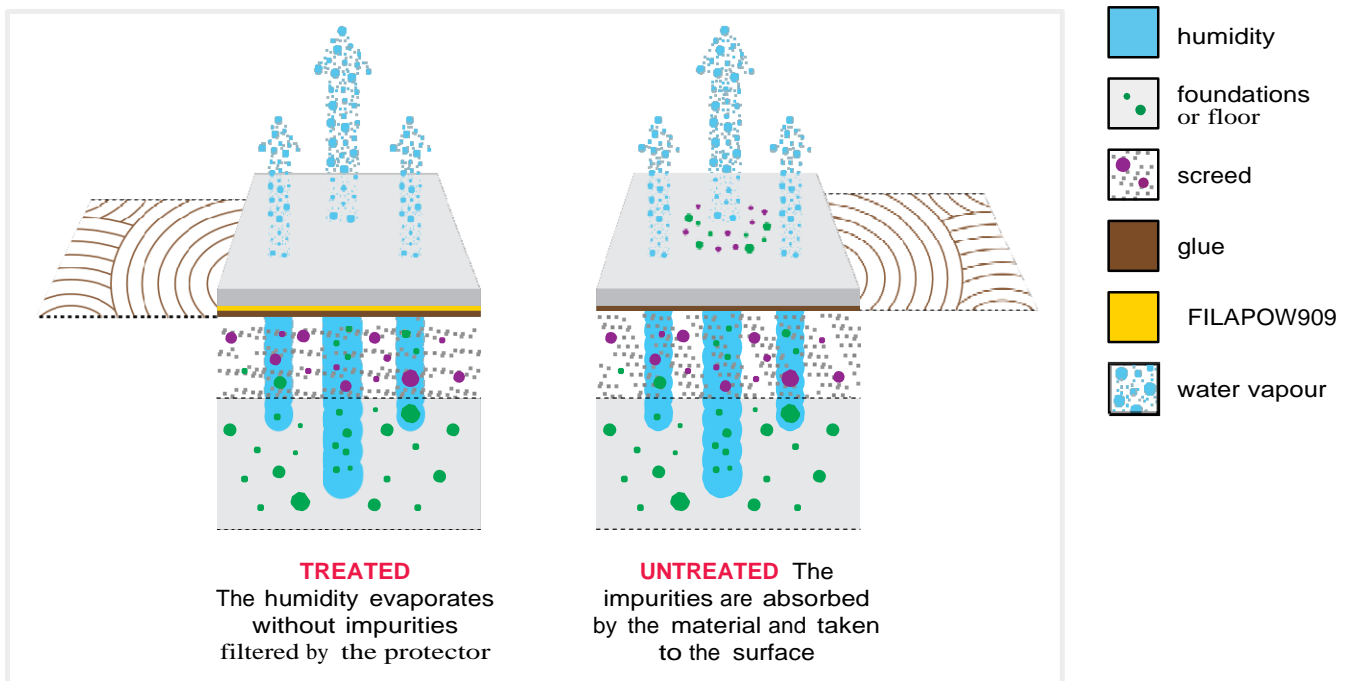

FILAPOW909 is the innovative FILA product that protects materials from efflorescence of contaminants and salts that could cause permanent stains.

The Ceramics Centre in Bologna has carried out tensile adhesion (pull-off) testing in compliance with the UNI EN 1348-2009 standard, confirming the product's suitability for application to the back of tiles without compromising the adhesion properties of the glue.

## WHAT IT'S FOR

- Anti-efflorescence protector to apply to the back of tiles or slabs of absorbent materials.
- It stops contaminants rising up from the substrate to the surface of the material (salts, tannin, metals, etc.) preventing the formation of streaks and/or stains.
- Protector to apply before laying.
- Specific product for natural stone, granite, marble, agglomerates, terracotta and absorbent materials.

## HOW IT WORKS

**SIZES:** 100LTS

**COVERAGE:** With one litre of product: 25 sqm\*

\*Coverage is indicative and refers to one coat

# PROTECTORLINE

## HOW TO USE

- Product is ready to use (no dilution required).
- Application: Thoroughly clean the back of the tile or slab, removing dust and residues. Apply the product continually and evenly to the back and side of the dry material, using a large flat paintbrush or airless pump and avoiding pooling.
- Leave to dry for about 24 hours before gluing the floor.

## ADVANTAGES

- Stops efflorescence of contaminants and stops the formation of surface streaks and stains.
- Does not form surface film and allows the material treated to breathe.
- Does not modify the characteristics of any kind of glue or grouting.
- Water-based COV-free product.
- Permanent protection.

## DETERGENTLINE FOR WASHING AFTER LAYING

### FILACLEANER

#### NEUTRAL CONCENTRATED DETERGENT

- Ideal for ordinary maintenance
- Delicately cleans all surfaces without harming them
- Does not need rinsing

### DETERDEK

#### ACID DESCALING DETERGENT

- Removes laying residues, limescale and rust
- Eliminates salt efflorescence from terracotta
- Buffered acid, does not release fumes

### FILAPS87

#### DEGREASING STAIN REMOVING DETERGENT

- For extraordinary maintenance
- Eliminates dirt and more difficult stains without harming the surface
- Stripper for water-based waxes

## NO DILUTION REQUIRED: READY TO USE

**WARNING:** Do not apply the product to the front of the material

## TECHNICAL SPECIFICATIONS

**COMPOSITION:**  
Single-component system made from organic silicon compounds.

**HAZARD STATEMENTS:**  
Causes severe skin burns and eye damage.

**PRECAUTIONARY STATEMENTS:** If medical advice is needed, have product container or label at hand. Keep out of reach of children. Wear protective gloves / protective clothing / eye protection / face protection.

IF SWALLOWED: Immediately call a POISON CENTRE or doctor/physician. Store locked up. Dispose of contents / container in accordance with the regulations in

force, administrative / container in accordance with the regulations in force.

**CONTAINS:**  
POTASSIUM METHYL SILICONATE.

**TECHNICAL CHARACTERISTICS:**  
Appearance: liquid  
Colour: colourless  
Odour: pungent  
Density: 1,014 kg/l  
ph: 13  
Flammability: >60°C
